VISION Long Range Training Plan Job Aid

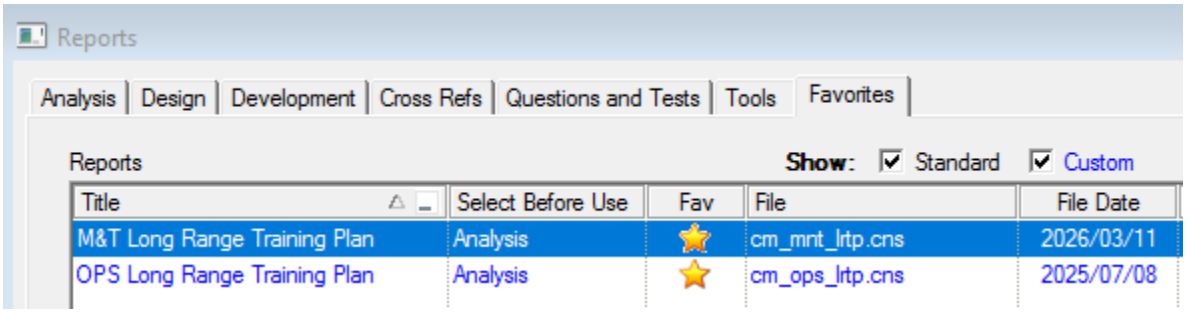

To run the M&T or OPS Long Range Training Plan:

NOTE: All recurring tasks in the hierarchy will be selected regardless of task status. The recurring task must be linked to an objective sequenced into a training unit. The training unit and objectives associated with the task must be in an "**Approved**" status to be shown on the report.

- Select the appropriate Analysis hierarchy item.
  - Organization for M&T
  - Job Position for OPS

- Generate a VISION Report and select appropriate Long Range Training Plan under the Analysis tab. Ensure "Custom" is checked.

For "xx" to be calculated properly on the report, the Training Unit must have two cross references linked to it (see the next four graphics):

- "**Continuing Training**" located in the "**CNS Training Info**" cross reference table.
- The last trained year located in the "**VISION Last Trained Year (yyyy)**" cross reference table.

Long Range Training Plan Report Output

Long Range Training Plan for: **Electrical Maintenance** (Cognitive Links)

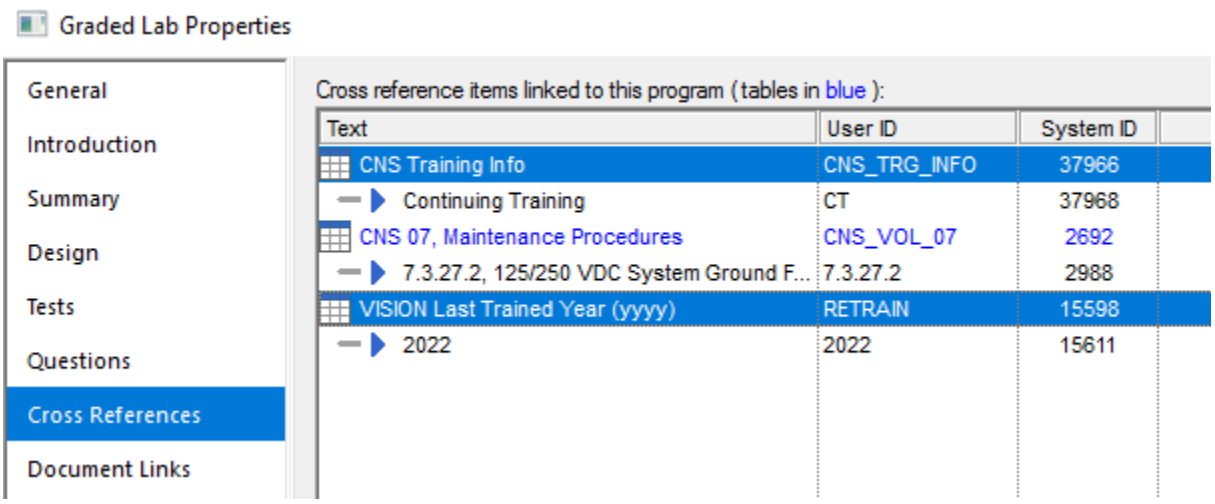

Electrician II

	Task Description / Task Number (Vision ID)	CU [1]	D [2]	I [3]	F [4]	Sum [5]	Period [6]		Course Code [7]	Last [8]	2026	2027	2028	2029	2030	2031
T	Locate ground faults using DC Scout 701003C0207 (2768)		5.70	3.00	5.00	13.70	4 Years	GL	ELE901-00-03 (21056)	2022	XX				XX	
T	Maintain generator exciters and voltage regulators 709028C0207 (2812)		5.70	5.00	3.00	13.70	4 Years	GL	ELE990-18-2B (21057)	2022	XX				XX	

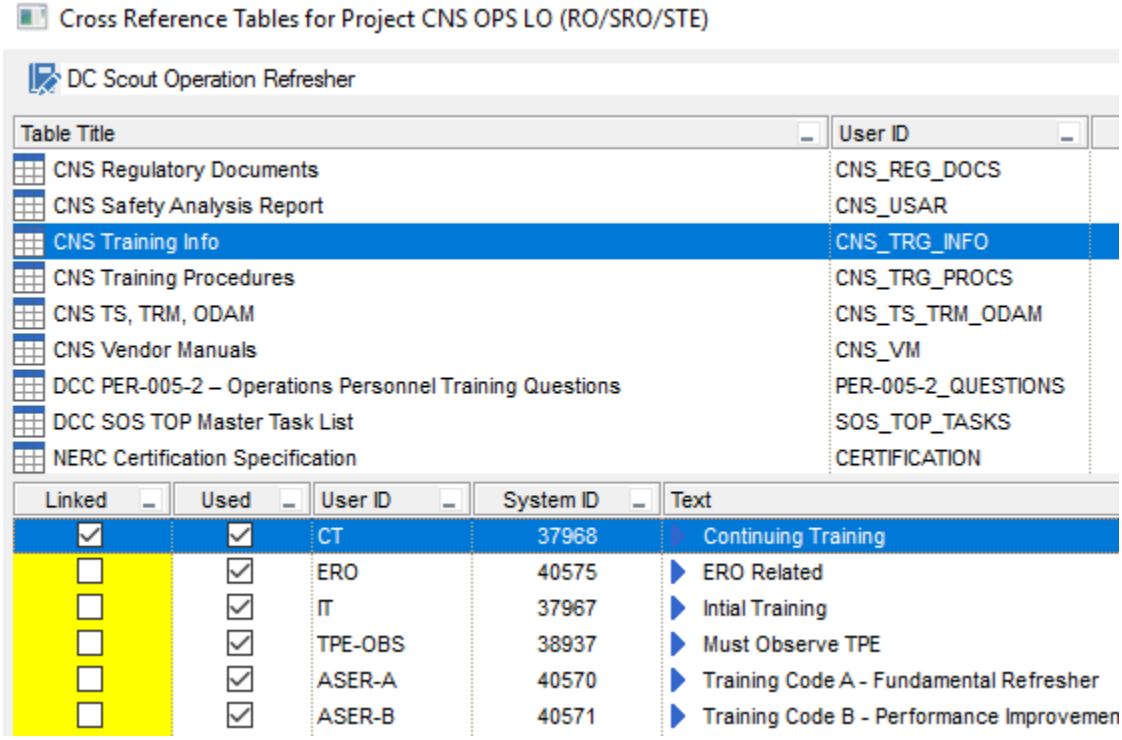

Electrician I

	Task Description / Task Number (Vision ID)	CU [1]	D [2]	I [3]	F [4]	Sum [5]	Period [6]		Course Code [7]	Last [8]	2026	2027	2028	2029	2030	2031
T	Test/adjust advanced protective relays 701028C0207 (2773)		5.70	5.00	5.00	15.70	4 Years	CL	ELE701-02-71 (256)	2024			XX			
T	Perform Raychem splicing 704009C0207 (2801)		5.70	3.00	5.00	13.70	4 Years	GL	ELE904-00-90 (21055)	2025				XX		

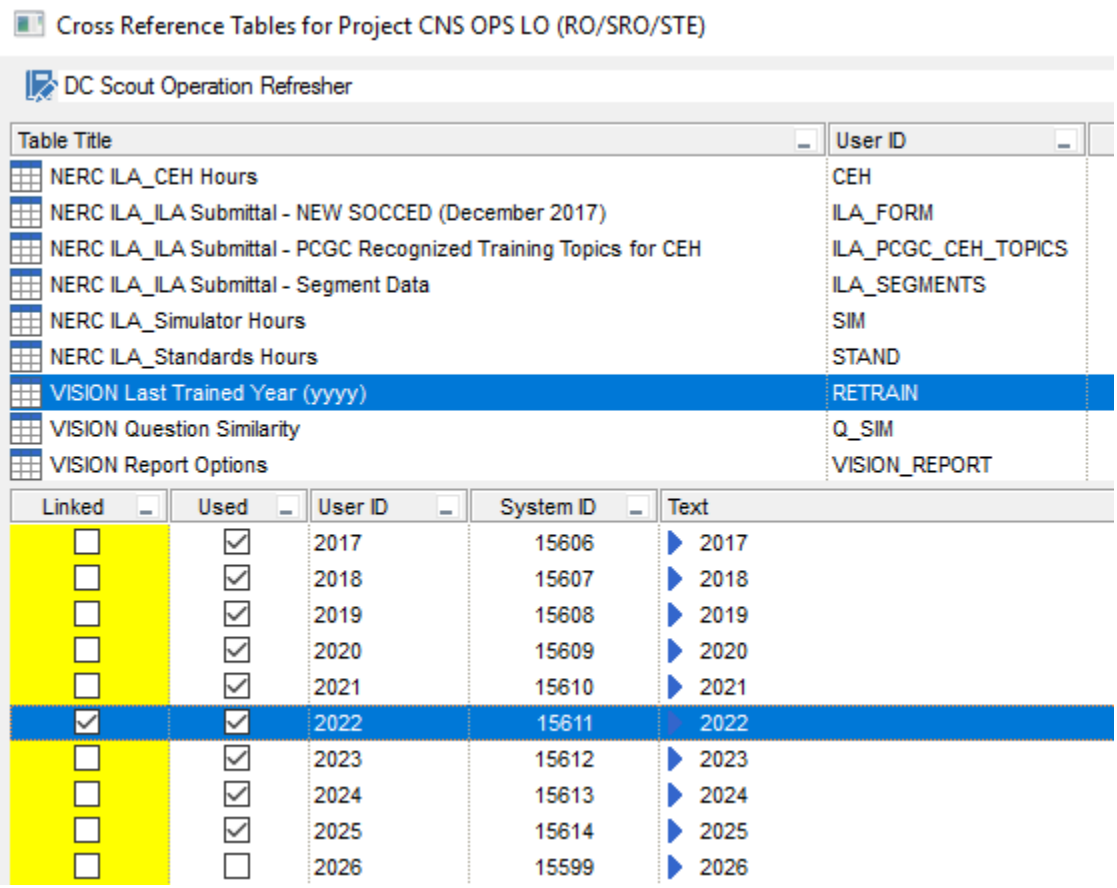

Training Unit Properties

CNS Training Info Cross Reference Table

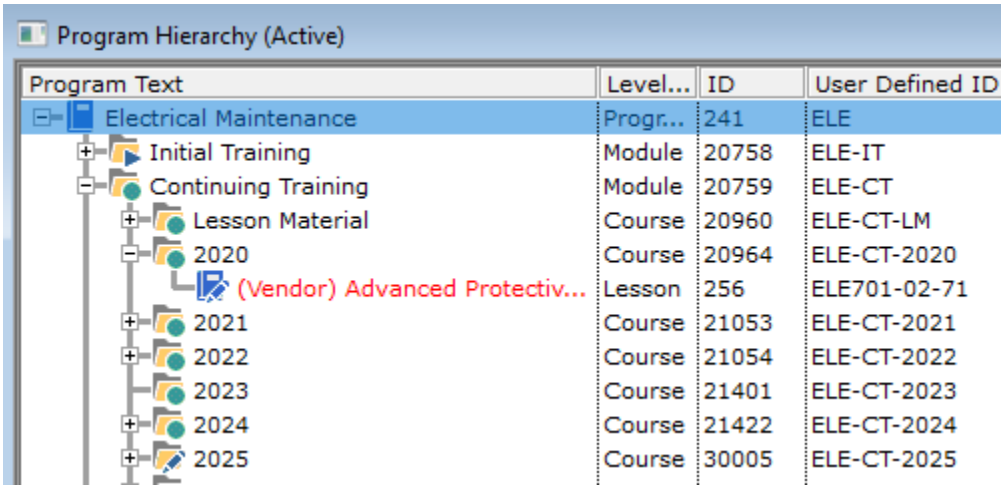

VISION Last Trained (yyyy) Cross Reference Table

Other Notes:

- Training units do not need to be in a continuing training hierarchy.
- Training units can contain both "**Initial**" and "**Continuing**" training cross reference links.
- Only the current "**last trained year**" is necessary. All others are ignored and can be removed.

- **DO NOT** edit the properties for last trained year cross reference items. Changing the "**Item Text**" and/or "**User-Defined ID**" can result in inaccurate long range training plans for other programs.
